**Subject:** PRESS RELEASE 10/28/14 - Traffic Signal Improvement at 12th Ave SE and Classen Blvd

## **PRESS RELEASE**

City of Norman 201 West Gray Norman, Oklahoma 73069

For Immediate Release: October 28, 2014

Contact: David Riesland, City Traffic Engineer, (405) 329-0528,

David.Riesland@NormanOK.gov

## TRAFFIC SIGNAL IMPROVEMENT AT 12<sup>TH</sup> AVENUE SE AND CLASSEN BOULEVARD

On Wednesday, October 29, 2014, under contract with the developer of the Aspen Heights project, Traffic Signals Inc. will be working at the 12<sup>th</sup> Avenue SE intersection at Classen Boulevard. After 9:00 a.m. on October 29<sup>th</sup>, the intersection may be temporarily controlled by an all-way STOP sign. Full signal operation should be restored at the intersection by 12:00 p.m. on the same day. The work to be done involves the wiring of new signal supports, as well as a new traffic signal control cabinet. The result of the work will be a new fourth leg of this intersection being constructed to serve the Aspen Heights development. The work is necessary so that the east leg of the Classen Boulevard intersection at Constitution Street can be reconfigured to serve the remainder of the Aspen Heights development. Due to the nature of the work, lane closures may be necessary on the northbound and southbound approaches through the intersection. Traffic control will be provided by Traffic Signals Inc. to guide motorists safely through this work zone.

Any questions about the project can be directed to Mr. David Riesland, City of Norman Traffic Engineer, at (405) 329-0528 or <a href="mailto:David.Riesland@NormanOK.gov">David.Riesland@NormanOK.gov</a>.
